The Fit for Poland II – Startup Accelerator Program selection process has been closed

Thank you very much for your interest! Applications are now closed!

The application process for the **Fit for Poland II – Startup Accelerator Program** has been closed!

Based on the decision of the evaluation committee appointed by the Polish-Hungarian Chamber of Commerce, **five startup companies and innovative SMEs** have been selected for the 2025 edition of the Fit for Poland II – Startup Accelerator Program. The selection was made both on the basis of their innovative solutions and their promising potential in exploring Poland as a foreign market.

The companies selected for the 2025 program of the Polish-Hungarian Chamber of Commerce are:

- Athlete Drones
- Picton Education
- SolartR
- Swicon
- Heurio.co / Anatic.ai

Within the framework of the accelerator program, the companies will participate in training sessions in Budapest, where they will get to know the Polish business environment and the innovation ecosystem. They will also attend lectures on negotiation techniques and business culture.

Congratulations to the winners, and thank you to everyone who applied!

We trust that the accelerator program will further strengthen economic cooperation between Polish and Hungarian companies and will lead to many successful business partnerships.

Antal Publishes 14th Salary Report

Antal Publishes 14th Salary Report

We are pleased to share that our member company **Antal** has released the **14th edition of its Salary Report**, a key source of insights on the remuneration of specialists and managers in Poland.

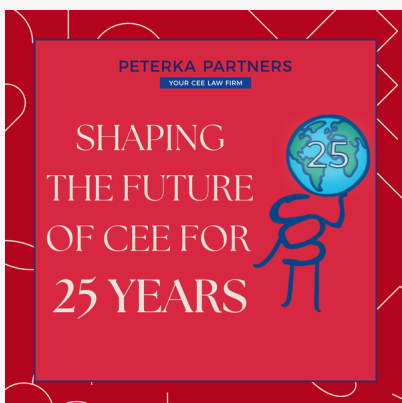

This year's data shows a **slowdown in salary growth**, with the highest increases in the **finance and legal sectors**, while salaries in IT have stabilized. The **average monthly salary** of specialists and managers reached **PLN 15,691 gross**, marking a 4% increase compared to last year. In finance and accounting, salaries rose by as much as **9%**, reaching **PLN 16,509 gross**.

The report highlights the growing **maturity of the Polish labor market**, which, after years of dynamic changes, has reached relative stability. Companies are increasingly focusing on building competitive advantage through **automation and digital technologies**. Specialists who combine technological skills with business knowledge are now among the most sought-after professionals, enjoying faster career growth and more attractive salaries.

Preparing for the National e-Invoicing System (KSeF) in Poland – ASB Group podcast

Preparing for the National e-Invoicing System (KSeF) in Poland – ASB Group podcast

The National e-Invoicing System (KSeF) will revolutionize invoicing in Poland. The government has recently adopted key changes to the schedule and scope of the mandatory system, which will come into effect from 2026. The aim of these amendments is to streamline processes and help businesses prepare for the new regulations.

To support this transition, ASB Group has prepared a podcast titled “*e-Invoices in Poland*”. In this episode, experts discuss in detail how KSeF will affect the current electronic invoicing practices, what mistakes to avoid, and what steps businesses can take to ensure compliance.

The podcast is in Polish, over one hour long, and packed with practical tips, tricks, and solutions — making it a valuable resource for every company operating in Poland.

BUSINESS NEWS FROM HUNGARY

PETERKA PARTNERS - Amendments to Act CLV of 1997 on Consumer Protection and Hungary Introduces “Simplified” Civil Lawsuits

PETERKA PARTNERS

YOUR CEE LAW FIRM

The goal of the Polish-Hungarian Chamber of Commerce is to provide its members with up-to-date business information about the Hungarian market. In cooperation with our member company, PETERKA & PARTNERS, we would now like to draw attention to two important recent changes:

Amendments to Act CLV of 1997 on Consumer Protection

Act CLV of 1997 on Consumer Protection has been amended again. The amendments concern the rules for handling consumer complaints and the related information obligations of companies, especially webshops. The rules for handling consumer complaints have been amended (e.g., the mandatory content of the minutes taken of verbal complaints has been expanded; if the company provides an electronic platform on its website for submitting complaints, it is required to confirm the submitted complaint; businesses shall keep all complaints (written or verbal) and their responses, etc.) and conciliation bodies may now issue decisions imposing obligations of up to HUF 250,000 instead of HUF 200,000 in their proceedings.

Hungary Introduces “Simplified” Civil Lawsuits

A new bill submitted to Parliament proposes a streamlined form of civil litigation: the "simplified lawsuit" meaning a fast-track procedure, mandatory legal representation, complete evidence upfront, and limited expert involvement. This marks a major push for quicker, more efficient dispute resolution in Hungary. For businesses and dispute-resolution teams, the simplified lawsuit offers a streamlined, faster path—with greater transparency required from day one.
