## Student Mentoring Programme 2025

The Polish-Hungarian Chamber of Commerce is launching for the fourth time her Student Mentoring Programme 2025 for students with a student status in a Hungarian higher education institution.

The Student Mentoring Programme 2025 is an initiative intended for Hungarian students, which aims to provide information and develop their knowledge on the topic of economic and trade relations between Poland and Hungary, support them with practical knowledge during a study tour in Poland which shall facilitate them in networking with Polish and Hungarian business entities.

The project is organized by the Polish-Hungarian Chamber of Commerce, with the grant support of the Wacław Felczak Foundation, and with the cooperation and support of our other institutional and business partners.

The Polish-Hungarian Chamber of Commerce, which is a business organization for connecting business entities of Poland and Hungary, considers it a priority to share interdisciplinary knowledge and international experience. Within the framework of the Student Mentoring Programme 2025, students can participate in webinars that present current events in the Polish-Hungarian business life. The main goal of the Student Mentoring Programme 2025 is to expand Hungarian students' knowledge, develop competence and skills, as well as it serves as a great opportunity to start an international career. We are confident that the program will provide a wonderful experience and a great opportunity for students to create a better future for themselves.

## Polish–Hungarian Business Forum in Cracow

### Polish–Hungarian Business Forum in Cracow

The **Polish–Hungarian Chamber of Commerce**, in cooperation with the **Central European Economic Development Agency (CED)** and Krakow Chamber of Commerce and Industry, Aviation Valley in Rzeszów and Polish Automotive Group, successfully organized the **Polish–Hungarian Business Forum** in Cracow in October 2025.

The event, held as part of the **SYMAS®**, **MAINTENANCE**, and **FASTENER POLAND®** industrial fairs organized at **Targi w Krakowie**, brought together business leaders, innovators, and decision-makers from across Central Europe. The Forum focused on strengthening regional cooperation and exploring the future of the industrial sector in the region.

Highlights of the event included two engaging panel discussions — “*Shaping the Future of Industry: Cross-Industry Strategies for Industrial Growth*” and “*Global Industry, Regional Strength: Building Partnerships in Central and Eastern Europe*.” Participants also attended a keynote presentation by **Peterka & Partners** and took part in B2B matchmaking sessions, which created valuable opportunities for networking and establishing new partnerships.

The Forum demonstrated the strong collaboration between Polish and Hungarian business communities and emphasized the importance of innovation, dialogue, and cooperation in building a competitive industrial future for Central Europe.

## Doing Business with Hungary - 27.10 - Katowice

### “Doing Business with Hungary” – Panel Discussion on Polish–Hungarian Economic Cooperation in Katowice

On October 27, 2025, the Polish–Hungarian Chamber of Commerce, in cooperation with the Central European Economic Development Agency (CED), took part in the 15th European SME Congress in Katowice, where it organized a panel discussion titled “*Doing Business with Hungary*.”

The aim of the event was to present the **current state and future directions of Polish–Hungarian trade and investment relations**, as well as to highlight opportunities for further cooperation between the two countries. The discussion covered key topics such as the practical aspects of entering the Hungarian market (taxes, regulations, business contacts), priority sectors including pharmaceuticals, food industry, automotive and energy, as well as examples of successful Polish–Hungarian business ventures.

The panel speakers included:

- **Tomasz Németh**, CEO of Gedeon Richter Polska, President of the Polish–Hungarian Chamber of Commerce
- **Balázs Szabó**, Commercial Attaché, Embassy of Hungary in Warsaw
- **Dr. Mariann Ritter**, President of Ilex Systems Zrt, representative of the Budapest Chamber of Commerce and Industry, Innovation Department
- **Gábor Kónya**, Head of Public Relations, PW Krystian

The discussion was moderated by **Dr. Anna Wisniewski**, General Director of the Polish–Hungarian Chamber of Commerce.

As part of the **European SME Congress**, the event once again demonstrated that **economic cooperation between Poland and Hungary** plays a key role in the development of the Central European region, creating new opportunities for companies in both countries.

## BUSINESS NEWS FROM HUNGARY

## LATEST NEWS FROM PETERKA PARTNERS

### PETERKA PARTNERS

YOUR CEE LAW FIRM

The goal of the **Polish-Hungarian Chamber of Commerce** is to provide its members with up-to-date business information about the Hungarian market. In cooperation with our member company **PETERKA & PARTNERS**, we would like to draw attention to two important recent changes:

- Amendment of legislation on product liability

Software and digital manufacturing files will be treated as “products” for the purposes of strict liability — meaning manufacturers can be held liable without proof of fault for defects in such items. The new rules also make it easier for claimants to bring forward cases: for example, if a manufacturer fails to cooperate with requests for evidence, or if there’s an obvious malfunction, a rebuttable presumption of defect or causation applies. Additionally, the limitation period for personal-injury claims is extended from 10 to 25 years, and the previous EUR 500 minimum threshold for property- damage claims has been removed.

- Significant judgment of Supreme Court of Hungary on rules of limitation

According to the Supreme Court, the rules of limitation are of fundamental importance and deviations from them by the parties cannot be recognized as valid. This is because a written request for performance is contrary to the purpose of the statute of limitations: rather than encouraging the enforcement of the claim, it prolongs the enforcement period and the uncertainty associated with it. Consequently, the parties may not deviate from the provisions governing the interruption of the limitation period in their contracts or individually-negotiated terms, nor can they broaden the scope of those provisions.
