## PETERKA PARTNERS NEWS

**PETERKA PARTNERS**  
YOUR CEE LAW FIRM

The goal of the **Polish-Hungarian Chamber of Commerce** is to provide its members with up-to-date business information about the Hungarian market. In cooperation with our member company PETERKA & PARTNERS, we would like to draw attention to two important recent changes:

#### *Hungary Narrows Scope of NIS2 Cybersecurity Obligations*

Hungary amended its Cybersecurity Act from January 2026, significantly reducing the number of companies subject to NIS2 cybersecurity compliance obligations. Certain smaller subsidiaries that were previously covered only because of group-level size calculations may now fall outside the regime. Businesses should reassess whether registration, cybersecurity audits, and supervisory fees still apply.

#### *Unlocking EU Funds Could Accelerate Compliance Reforms*

The incoming administration indicated that restoring access to frozen EU funds is a top priority. To meet EU expectations, Hungary is expected to strengthen judicial independence, anti-corruption safeguards, and public procurement transparency. Companies benefiting from EU subsidies or public financing should monitor upcoming governance and compliance reforms that may affect eligibility and reporting obligations.
